No more recounting in the evening

Before In the evening, you recount the notebook, the cash and the stock. And something is always missing, without knowing where.

With vitePOS Every sale is recorded the moment you take payment. In the evening, you know what should be in the till.

A sale in 3 moves

1. **Tap or scan the item**
   With the phone's camera or a barcode scanner.
2. **Take payment**
   In FC, $, € or mobile money.
3. **Hand over the receipt**
   Printed or sent by WhatsApp; stock is updated in real time.

What you gain

No more change mistakes
Customers pay in FC, $ or €: vitePOS works out the change, at the daily rate you set.

A business people trust
Every customer gets a receipt with your name, logo and contact details, printed or sent by WhatsApp.

You know what to restock
vitePOS warns you when a product is running low, and 30 days before a batch expires.

Trust, and check
Each seller has their own account: you know who sold what. A cancelled sale stays visible, with its reason.

The evening till, no maths
vitePOS tells you what should be in the drawer. You count, and any gap stands out.

Your business, wherever you are
The day's sales, expenses and profit on your phone, even far from the store.

Phone · **Tablet** · **Computer** · **Receipt printer**
