# No more recounting in the evening

**Before** In the evening, you recount the notebook, the cash and the stock. And something is always missing, without knowing where.

**With vitePOS** Every sale is recorded the moment you take payment. In the evening, you know what should be in the till.

## A sale in 3 moves

**1 Tap or scan the item**
With the phone's camera or a barcode scanner.

**2 Take payment**
In FC, $, € or mobile money.

**3 Hand over the receipt**
Printed or sent by WhatsApp; stock is updated in real time.

## What you gain

**No more change mistakes**
Customers pay in FC, $ or €: vitePOS works out the change, at the daily rate you set.

**A business people trust**
Every customer gets a receipt with your name, logo and contact details, printed or sent by WhatsApp.

**You know what to restock**
vitePOS warns you when a product is running low, and 30 days before a batch expires.

**Trust, and check**
Each seller has their own account: you know who sold what. A cancelled sale stays visible, with its reason.

**The evening till, no maths**
vitePOS tells you what should be in the drawer. You count, and any gap stands out.

**Your business, wherever you are**
The day's sales, expenses and profit on your phone, even far from the store.
