How it works

A sale in 3 moves

1 Scan or tap

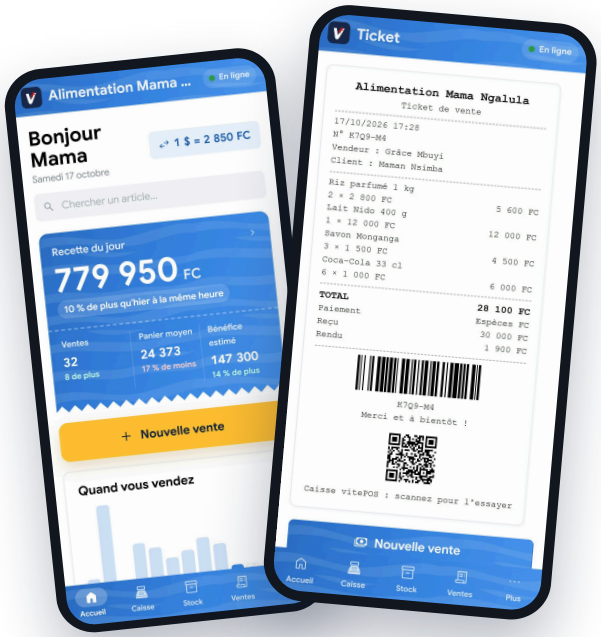

Scan the barcode with the phone's camera or a barcode scanner, or tap the item on screen.

2 Take payment

In cash ($, €, FC) or mobile money: the change to give back is shown.

3 Hand over the receipt

Printed, or sent to the customer by WhatsApp. Stock goes down by itself.

Features

What vitePOS does for you

No more change mistakes
Customers pay in $, €, FC or mobile money: the change is worked out.

Never blocked by the network
Internet down? Keep selling; everything syncs when it's back.

Never out of stock
Alerts before running out and before expiry. Sell by the carton or piece.

No more theft or slip-ups
One account per seller, no sale erased, buying prices hidden.

The till adds up
In the evening, closing compares the drawer with what was expected.

Your profit, anywhere
The day's sales, expenses and margin, even far from the store.
